

# Macro and Art Photography

**Tutor:** John Humphrey FRPS

**Location:** Amersham Studios

The day will include John's techniques and tips for producing images with impact. He will lead you through the artistic processes designed to unleash creative potential in macro and art photography. John will review ways in which the manipulation and presentation of photographs can be used to enhance their artistic impact.

## Topics will include

- The seven techniques for macro photography
- Successful subjects for macro and art photography
- Photoshop set up for art photography
- Key techniques for image manipulation
- Presenting photographs for maximum impact
- The 'rules' of photographic composition and when to break them

## Who is the course for?

This course is for anyone who is looking for new directions for their photography and who is looking to enhance their technical and creative skills. It assumes working knowledge of a compact or SLR camera, and basic familiarity with image processing software such as Photoshop.

## What happens on the course?

The course is a stimulating combination of presentations, demonstrations and discussions. Delegates do not need to bring any equipment but are welcome to bring any photographs they would like to show and discuss. Please be aware that there might not be time to look at everyone's images.

## Lunch is provided

The workshop will take place at Amersham Studios. Please visit the studio website for further directions and map.
